Zin Min Thant (2IST-)

Thiri Mon (2IST-)

Khin Thet Hnin (2IST-)

Lal Shree Phaw (2IST-)

Ei Ei Theint (2IST-)

Hnin Ei Thazin Htwe (2IST-)

Thuzar Win (2IST-)

Shin Thant Lwin (2IST-)

- **Project Leader: Bhone Pyae Sone (2IST- 66)**

- **Target Audience:**

This website is specifically designed for children between the ages of **8** and **14** who are absolute beginners in the world of programming. The goal is to introduce them to basic coding concepts in a fun and interactive way.

- **Description:**

Code4Kids website is designed to provide a simple and engaging learning platform for kids who are beginners in coding. The focus is on making coding fun, creative, and accessible, rather than complicated. The core mission of the website is to demystify coding, foster problem-solving skills, and spark creativity in children, providing them with a strong and enjoyable foundation for future learning in computer science.

- **Language and Framework:**

1. **HTML (HyperText Markup Language):** Provides the essential structure for all pages, lesson content, and the containers for interactive elements.
2. **CSS (Cascading Style Sheets):** Creates the vibrant, engaging, and user-friendly visual design. It makes the interface intuitive and responsive for young learners.
3. **JavaScript:** For adding interactivity, animations, and coding exercises and used to implement all the interactive and dynamic features of the website.
